

## Amigo Portable CCTV

The Amigo is a hand-held portable video magnifier that is slim, light and portable. Optimal viewing is achieved with a 6.5 inch tilting screen. This small compact unit allows you to magnify text and images

anywhere. Despite the screen being quite a bit bigger than the pocket viewer CCTVs, the Amigo itself is only marginally bigger.

- Slim: less than 4.5cm
- Light: 600 grams
- Small: designed around the display: 16.3 x 9.3 x 4.3 cm
- Magnification from 3.5 to 14X enables the user to leave the Amigo directly on reading material and adjust magnification.
- A large field of view allows the user to see more of the reading material.
- Large 6.5" widescreen which enables seeing more of a line of text.
- Screen tilting function gives the user the flexibility to view images and text at a comfortable angle.

- Freeze frame allows the user to take a temporary picture.
- Removable standard battery with internal and external chargers (spare battery for extended operating time included)
- 6 viewing modes (including 2 Colour Select options)
- Writing stand and Carrying Case
- Connects with TVs for increased magnification
