

Book Sense XT

Digital Audio Book player

The new Book Sense XT, allows people to access information for education, profession and entertainment. Students can access school textbooks, people in the workplace can stay current with journals or business magazines, and anyone can enjoy newspapers, a book, and even their favourite music.

The Book Sense XT has a built-in Text to Speech engine and can read the following files: txt, rtf, doc, docx, brl, brf and html. Just upload any of these files including html websites onto the Book Sense, sit back and listen to it!

The pocket-sized Book Sense XT is ideal to play Daisy content from a variety of formats like Daisy 2.02, ANSI/NISO Z39.86/DAISY 3.0, NLS, Bookshare, NIMAS 1.1, XML Daisy.

It is easy to transfer downloaded books and music directly to the Book Sense XT using the supplied USB cable. The following music formats can be played: mp3, mp4, ogg, wav, wmv, flac, wma, asf, Audible Format 4 and Enhanced Audio aa and aax. Listen via the built-in stereo speakers or connect a headphone. The Book Sense XT can also record audio files from the line input, the built-in FM radio or from the stereo microphones.
