

Jaws Screen Reading Software

The world's most popular screen reader, JAWS for Windows works with your PC to provide access to today's software applications and the Internet for Blind and Low Vision users.

JAWS' multilingual Eloquence synthesizer speaks through your computer's sound card, reading information and providing access to a wide range of informative, educational, and job-related applications.

The new JAWS 11 is Windows 7 compatible and offers several new features and improvements such as Research it, Word index and improved reading of number strings. For a full overview check our website.

- New users will appreciate the included Basic Training Tutorial in DAISY format with text and audio instruction to help them understand how to navigate the Windows environment with JAWS. A free, fully-functional demonstration version of the FSReader DAISY player application is included.
- A fully developed Help facility is available through a few short keystrokes.
- JAWS Tandem lets you access another JAWS computer so that you can provide hands-on technical support, and conduct remote JAWS training.
- Jaws Standard will run on XP Home, Vista Home and Windows 7 Starter and Home systems.
- Jaws Pro will run on XP Home and Pro, Vista Home and Business systems and Windows 7 Starter, Home, Pro and Ultimate systems.

Jaws & the Asus EEE PC – an effective combination

The very small and very light (1.1 kg) Asus EEE PC with extra memory and storage capacity is able of running Jaws Standard. The EEE PC runs on Windows Home, so standard Windows applications can be used. The unit has a battery life of up to 7 hours(!) and Braille Displays can be connected via the USB ports.

Options available: Full keyboard, External CD/DVD drive
