

# Kurzweil K1000 OCR Software

Kurzweil 1000 is award-winning software that makes printed or electronic text accessible to people who are Blind or Visually Impaired. It incorporates communication and productivity tools to ease and enhance their reading, writing, and learning experience.

The software uses a standard scanner and speaks text aloud in a variety of natural-sounding voices that can be modified to suit individual preferences. In addition, it provides users with document creation and editing as well as study skills capabilities for note taking, summarizing and outlining text.

Kurzweil 1000 delivers quick access to a wealth of information including online books, magazines and encyclopaedias so users can pursue any reading interests. They can also take their reading wherever they go by sending files to Braille note takers and embossers as well as portable devices such as DAISY and MP3 audio players.

Kurzweil 1000 is easy to use for beginners, yet powerful and flexible for advanced users. With its wide array of useful features, users save time and gain independence – whether at home, at school, or at work.

## Features and benefits

- Integrated Study Tools
